FRANATECH

Dissolved CO₂ Sensor

CO₂
Monitoring
and Control
in Fish-
Farming

Dissolved CO₂ Sensor

Dissolved CO₂ Sensor

Key Benefits

- Cut down your operational costs
- Optimize your feeding cycles
- Optimize your ventilation management

Key Features

- maintenance limited to a few minutes a month
- No calibration
- Plug-and-play
- Continuous monitoring
- Reliable and accurate values from 1 to 50 mg/l
- Long term stability

CO₂ Monitoring and Control in Fish-Farming

fish growth and health

impact of CO₂ level:

over 45 mg/l
fish death

between 15 and 30 mg/l
slow growth

below 15 mg/l
optimum conditions
